(*) Each transmission is repeated every three minutes.
A transmission consists of the Callsign of the Beacon
sent at 22 WPM followed by four 1 second dashes.
The Callsign and the first dash is sent at 100Watts. The
remaining dashes are sent at 10 Watts, 1 Watt and 0.1 Watts.

This listing is by no means complete and totally accurate. If you
know of any information that can be included into this list that is
now indicated with a ? , I would appreciate this info via either by:
